

Change for Inclusion

Your Programme to Refocus the SEND System

**“Inclusion
is a feeling
not a place.
it is
belonging
and feeling
valued”**

Craig Goodall

**YOU
BELONG
HERE**

This is a timely and exciting opportunity to review your SEND systems to ensure you are building a system of belonging for all Children and Young People with additional needs.

Change for Inclusion is a programme of tailored support for your local area to develop your SEND Inclusion Plan, policy, strategy and practice to transform and refocus your SEND system.

The programme includes a range of activity based on local evidence over a 2-3 year timeframe, codesigning a framework for inclusion and what belonging means in practice for your local area.

Hartlepool Local Authority Said:

“This work has helped us to establish our current position and challenge what we need to do to bring consistency and high quality ordinarily available provision across every school.”
