## Underspend

**Important Note About Underspend:** As outlined in your Grant Offer Letter, grant funds cannot be carried over financial years. This means your Year 2 grant allocation needs to be spent in full by the end of March 2025.

If you cannot spend your full allocation, we request that it is identified, declared and returned as soon as possible (please do not wait for the latest deadline of 28 February 2025).

As a programme, any underspent grant funds can be redirected through the Priority Grant Process (see Annex P (ii) in your Grant Offer Letter). This will allow for underspend to be utilised by other LAs taking part in the programme, as opposed to being reabsorbed by the Department for Education at the end of the financial year. Ultimately, is it better that the grant money is used to increase opportunities for Supported Internships across the country as this is our shared aim.

In this next section, please declare whether you have identified any underspend or not. At this stage, you have two options regarding underspend:

- If it is not going to be possible to spend your Year 2 allocation in full, the underspend will need to be **returned as soon as possible** so it can be added to the Priority Grant pot. If you select this option, NDTi will send you the details for this process.
- If you would like to repurpose your underspend (i.e., use it for a different purpose than what was in your grant claim), this may be possible with approval from NDTi. Please reach out at [Slgrants@ndti.org.uk](mailto:Slgrants@ndti.org.uk) and CC your Regional Lead.

- **Have you identified any underspend for your Year 2 grant?**
- **If yes, how much underspend have you identified?** [Pls give your response in £s]
