

Data Webinar

June 2024

Funded by

Delivered by

Welcome

- Agenda shared in the chat
- Session will be recorded
- Recording will be available on Internships Work website
- Space for questions after each presentation (raise hand or place in chat)

What data?

- Number of young people from your local area on a supported internship
- Number of young people in paid employment following a support internship
- Number of young people 16-25 with an EHCP in your local area

Action Plan

Local Authorities should be working towards as part of their action plan to have data on the following:

- Young people following Supported Internships and outcomes from supported Internships over the last five years
- Average age of young people taking part in supported internships
- Young people with EHC plans taking part in traineeships and apprenticeships
- Young people moving into paid employment from other study programmes
- Prediction of number of young people who could benefit from Supported Internships over the next four years

Baseline Data

Below is some of the data from the most recent baseline survey at the end of 2023-

- **3448** young people currently on a supported internship
- **4647** young people predicted to be on a supported internship 24/25
- **1023** young in paid in employment following a supported internship
